

Scania Citywide LE range

Take the lead in the urban challenge

This effective dual-purpose solution lets you run the same high-capacity buses on both city and suburban routes. The layout permits rapid passenger flow with excellent comfort and visibility for passengers seated in the rear. With a wide variety of floor, seating, glazing and décor options, Scania Citywide LE (low entry) can be equipped to satisfy your specific requirements. Choose the engine and fuel that best meets the operational needs of your market: conventional diesel, biodiesel, bioethanol or biogas.
