

Scania Citywide LF range

Take the lead in the urban challenge

Are you looking for a platform-based solution for today's urban transport challenge? Then the new Scania Citywide LF (low floor) might be your answer. Designed for busy inner-city routes demanding fast passenger flow and maximum capacity, the Scania Citywide LF features a flat floor that's open to flexible seating as well as glazing and décor options to satisfy your specific requirements. Choose the engine and fuel that best meets the operational needs of your market: conventional diesel, biodiesel, bioethanol or biogas.
